

CHARACTERISTICS

- Natural acidic cleaning product based on plant-based additives that loosen dirt from surfaces
- Self-cleaning: scrubbing or a high-pressure cleaner is not required
- Composed of 90% natural raw materials and is 90% biodegradable

APPLICATIONS

- Removes contamination, green staining, and atmospheric deposits on flat and sloped roofs, facades, terraces and garden furniture.

TECHNICAL CHARACTERISTICS

Application temperature	+8°C - +35°C
pH	4.5
Shelf life of unopened product	24 months
Storage conditions	Transport and store upright in a dry, cool place at +5°C to +25°C.

PACKING AND COLOURS

bottle 5l - 128 pieces/pallet
Milky/transparent

METHOD OF USE

Preparation

- The surface must be solid, strong enough and clean, dust and fat-free.
- Remove any water, water film or raindrops. The best adhesion is obtained on a dry surface.
- Shake vigorously before use.
- For a faster and more effective result, remove large accumulations of dirt manually.

Application

- Apply with a brush.
- Apply with a sprayer.
- Allow the product to work, the cleaning happens on its own (no scrubbing). The result becomes noticeable after 24 hours to a few days.

Consumption

Depending on the level of contamination, 5-10 m²/l.

Cleaning

- Clean tools with water.

This technical data sheet replaces all previous editions. The data on this sheet have been compiled according to the last laboratory report. Technical characteristics can be changed or adapted. We are not responsible for any incomplete information. Before use, one needs to ensure that the product is suitable for his application. Therefore, tests are necessary. Our general conditions apply

POINTS OF ATTENTION

- Do not apply in the case of risk of rain and frost.
- Do not apply in direct sun.
- Not suitable for limestone-containing materials such as bluestone, natural stone...
- Not suitable for all types of powder coating. Test compatibility with powder coatings in an inconspicuous area before use.
- A preliminary test is recommended for mineral plaster (calciferous) due to the risk of staining or deterioration of the plaster due to the acidic nature of Green Cleaner. There are no issues with synthetic plaster.
