Technical data sheet

WOODEN PACKERS

CHARACTERISTICS

- All our wooden packers are conform to the relative norms.
- They are colourfast and treated with products that correspond to the STS 38.
- The thickness of the wooden packers is shown by the colour
- Beech is one of the strongest kinds of wood in these parts of the country.
- AQUA BEITS: This is a colouring that has been made from natural materials. In addition to that, there have been added products that stop rotting (STS 38). With this treatment the wooden packers are resistant to water and colourfast.

TECHNICAL CHARACTERISTICS	
Type of product	Beech
Shelf life of unopened product	240 months
