

DL **CHEMICALS**
Since 1936 Manufacturer of Sealants

Parasilico Lead

Silicone with excellent colour match to lead

Ideal for pointing lead sheet and lead flashing into brickwork, stone and concrete

Permanently elastic and very good resistance to UV, weather, ageing

Sealing of joints on roofs, gutters, downpipes, parapets...

Excellent adhesion to most building materials and to lead

The alkoxy-based formula gives the kit excellent workability and excellent ease of extrusion at any temperature

Available in 300ml

RAL 7037 Dusty Grey
